ACTIVITIES

Welcome Back Students!!!

The first activity the school held was a success. Popping each others balloons and watching a movie served as a great back-to-school party. This party was planned by the student body officers. Hitting balloons tied to each others heads and watching "The Ghost of Mr. Chicken" seemed to keep the high school students very entertained. The back-to-school party was planned very well and was a huge success.

While showing their sisterly love, Kaylee and Brittney Weston go after each others balloons.

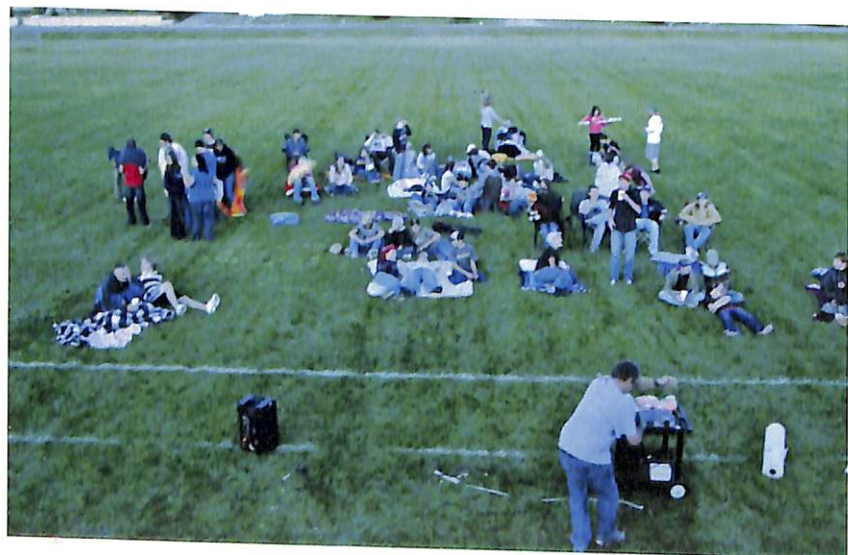

Student Body President, Derrick Moody, announcing the next activity for the night.

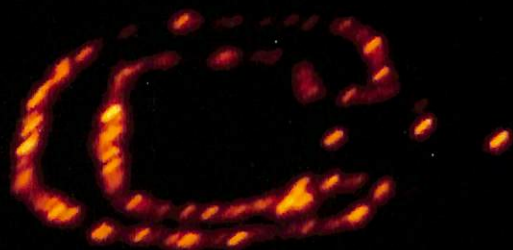

Senior boys- Andrew Petersen, Steven Miner, and Sullivan Teichert- demonstrating "I got your back."

After playing their hearts out to be the last one with an unpopped balloon, the students decided that it was time to settle down. The students made themselves comfortable and got ready to watch a great movie. (picked out by the trusted student body officers.) While waiting for the movie to start, students used their time to get reacquainted with their friends after a long summer break.

Cokeville High School did a magnificent job this year performing *West Side Story*. *West Side Story* is a story of two lovers torn apart by prejudice and hate. Maria (Megan Cook) is a Puerto Rican girl who has just moved to America and has fallen hopelessly in love with Tony (Derrick Moody) an American. Maria's brother, Bernardo (Bob Cook), is the leader of the Puerto Rican Gang, the Sharks. Bernardo hates the Americans and especially the American gang headed by Tony's best friend Riff (Sullivan Teichert). The conflict between the two causes many problems for Tony and Maria. When the two Gangs mix in a "Big Time Rumble" Bernardo kills Riff. In a frenzied moment of revenge Tony kills Bernardo. In order to get revenge Chino (Jordan Sparks) hunts for Tony to kill him. Just as Tony finds Maria, to run away and leave all the hate behind, Chino kills him. The two gangs are devastated by the loss of Tony, Riff, and Bernardo. The play ends with Maria and the two gangs leaving with the body of Tony.

Leads, Derrick Moody (Tony) and Megan Cook (Maria) having some alone time outside Maria's window.

Celebration

"Celebration was a bodacious experience this year. We had some pretty sweet times. Our new director, Mr. Willie, is definitely the coolest guy on campus. He was in a band. Yeah.....you know you're cool if you were in a band. We also started vocalizing into microphones this year so everyone could hear our luscious voices loud and clear, even those sitting in the back. The best part was hanging out with the other members and eating the treats Jordan and Hannah brought every other week because they were late. Last one to practice brought treats and those two managed to have treats often. Overall I give us a 10 for style, a 9 for singing ability, and an 8 for punctuality."

Christmas Party

Students gathered excitedly on the last day of school before the Christmas break for the annual Christmas party. The party started with an exchange of white elephant gifts. Then students went to the auditorium and watched "Christmas with the Kranks."

Sulli Claus, Santa Claus but better, and thinner, and without the big red suit.

After which the letters to Santa Claus were read. This year we had to turn to Sulli Claus to represent Santa in giving the gifts. Santa Claus was busy at the elementary and Panther Claus was at a mascot convention, but it all worked out in the end.

Chance Maddock is thrilled to be on Sulli Claus's lap while Derrick reads his letter.

Andrew and Dallen filming their silent film.

The filmmaking class was always found busy, whether it was breaking into the school late at night, or causing havoc in the hallways. They made ads, music videos, silent films, movie trailers and one big movie. Their favorite thing to do was get kids out of Seminary and film crazy stunts. The one big movie was "The Classroom" and everyone had a great time putting it together. After a lot of hard work, it was another CHS masterpiece.

Broadcasting- These fine fellow's were in-charge of keeping the community involved and informed about the happenings at Cokeville High School. Working on a television crew was a lot harder than they expected. They learned fast to not have Kebra Kallstrom as an anchor woman, but when you put Michelle Hoffman and Chandler Harris as anchors, they pretty much rocked. It only took them 5-10 takes to get it right. Roland Briggs was usually found behind the camera. Andrew Henderson and Daniel Cook were put in-charge of "guarding" the door, while Beau Petersen and Chance Maddock were typically found to the side spouting out instructions.

Michelle and Chandler as anchors.

THE Sage

of Cokeville High School

The Sage is the CHS' newspaper. Its staff is composed of students who like to play around, but get the job done on time every month. Whenever you walk into the English room during journalism, you will find a blend of jokes and laughter, while the soothing sounds of today's music entertains the staff. But somehow with all the excitement they still manage to release an issue every month.

Football Playoffs

A host of Panthers fly to the football to bring down a Southeast Cyclone running back.

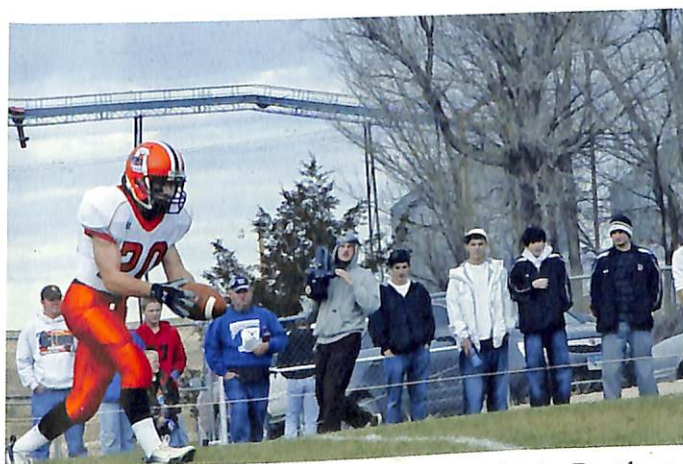

The football team had another successful season. They had some good games and a couple of close losses. During the season they scored forty or more points 4 times. They made the playoffs and lost in the semi's to Southeast (the eventual state champs) in a close game, 7 to 2. The seniors played hard and will be missed.

The Lady Panthers had a very successful season this year. They competed against schools big and small and came away victorious most of the time. A sense of greatness accompanied every practice and game. Only one cheer was used before and after practice...State Champs!! Winning became an expectation. They only lost two matches outside of tournaments and even won the Thermopolis tournament. FYI...They beat the 2A second place state team and the 3A first and second place state teams. A fun time was had by all. This was a great year!!

Right: No way that ball is coming back across the net.

The Lady Panthers came into Regionals ranked first. They came prepared to get the job done and keep the trophy in Cokeville. Ten Sleep went down in three the first round. Snake River was up next. Cokeville played well and dominated the match. The final match was at 4:00 the next day. The Panthers were set to play Burlington. Cokeville won the first game 25-23, but let the Huskies come back in the second game. The Lady Panthers whipped out a victory in the third game 25-12, but again the Huskies came back in the next game. Cokeville finished off the fifth game with a victory of 15-8, sending them to State still ranked first.

Regional Basketball

The boys qualified to play in the regional tournament this year. Their first game was against LSRV. The Panthers played hard, but came out short. The next game was Farson. The team had an early lead because of a technical and ended up winning by the 2 points they got due to the tech. Their last game was against Encampment. The team played hard, but this ended up being the last game of the season.

JV Girls Basketball

JV Girls Basketball Team Left to Right: Torie Nielson, Olivia Teichert, Lauren Fiscus, Holly Grandy, Hannah Dayton, Morgann Weston, Madisen Petersen, McKenzie Thompson.

Right: Katelyn Teichert sinks another one of her free-throws that helped clinch the game against Fort Washakie.

Left: The Cokeville Panthers put their regular out-of-bounds play to action.

The Cokeville Lady Panthers came to regionals first in their conference. The team had a rough start against Fort Waskakie that began before warm-up when both teams realized they were wearing white uniforms. The Panthers ran to the locker room and changed, but still played a bit shaky in the first half. They ended up winning: 65 to 48. St. Stephens was the next team on the Panthers' agenda. They played fairly solid with few let-downs. The Panthers won with a score of 76 to 57. The championship game was against the Burlington Huskies. The team knew they had to play well to win, but fell a bit short of that goal and lost 37 to 53.

State Basketball

Left: The team poses for pictures after beating St. Stephens in the battle for third place.

State basketball was a bittersweet experience for most of the team. They played very well against Kaycee in the first round and won 58 to 40. They had a slight let-down against Southeast in the semi-finals and lost 29 to 41. They were set to play St. Stephens for third place. The mettle and heart of the Panthers was displayed in their victory of 63 to 57.

STUDENTS

SENIORS - 88-91

The Juniors... often verbally abusive to the seniors, spend most of their time telling anyone who will listen, why their lives are horrible. They are most definitely jealous of the seniors and their ability to manipulate the teachers. They spend most of their time arguing with each other or trying to get to the lunch room before everyone else, just so they can get a sneak peek at the "senior life".

JUNIORS - 92-93

SOPHOMORES - 94-95

Freshmen... Tomorrow's leaders, the cream of the crop some may say. But most of the time, people separate the cream from the milk, and throw it away or whip it.... whip it good. For serious though, the freshmen really enjoy the front of the bus, and the back of the food line. Contrary to popular belief, the teacher's all wish every class could be like these little squirts... NOT!!!

The Sophomores... probably the rebels of the school. While most of the girls like to follow the rules, the boys are searching for anything to get themselves in trouble. Pretty much the entire class is very competitive and has to beat some kind of record (some of which have never been recorded). They love the authority they have over the freshmen, and do what they can to use that power.

FRESHMEN 96-97

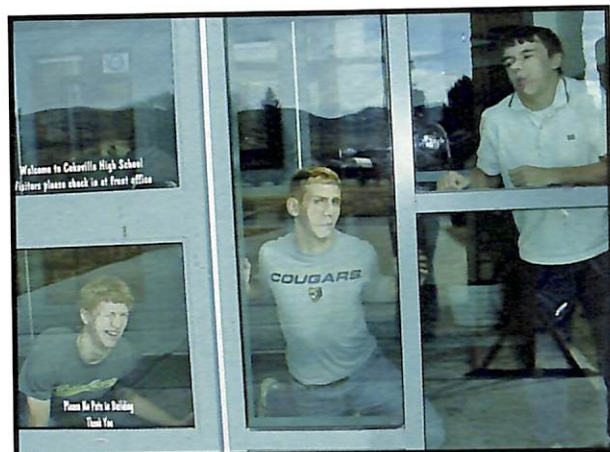

STUDENT BODY OFFICERS

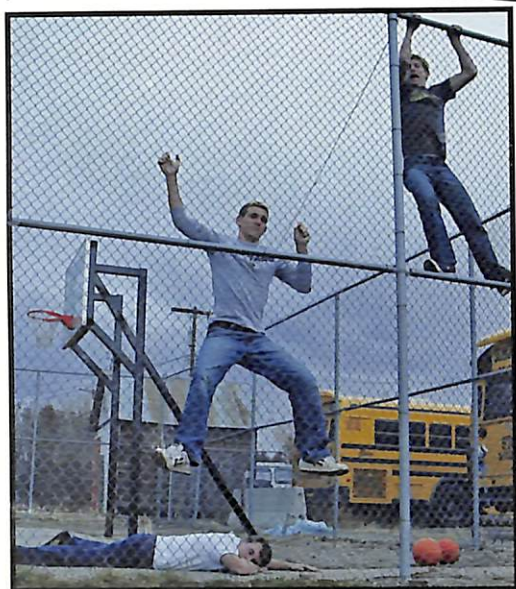

President

Derrick Moody is this years President at Cokeville High School. He is a great president who rules with a mixture of strict discipline and love. He enjoys sleeping during school, and encourages his fellow students to do likewise. All Hail President Moody!

Dallen (left) is expressing "No Pets Allowed" while Andrew (middle) is showing his BYU spirit and Derrick (right) doesn't really know what is going on.

(Above) The Presidency escaping... Derrick obviously is not going to make it.

Vice President

This year's presidency was graced with the presence of Andrew Petersen as Vice President. He is a devoted believer in Derrick's "sleep during school" policy. He has an almost scary obsession with fire and burning things which we all expect will lead him to torching the school some day.

Secretary

Dallen Fiscus was elected 2008-09 Student Body Secretary for Cokeville High. He fills the school's halls with music from his black guitar that he is rarely seen without. His favorite pastime, other than guitar, is showing everyone else how smart he is. But it's true, he is smart.

Yearbook Staff

Michelle Hoffman, this years Yearbook Editor, is in her third year on the yearbook staff. She spent most of her class time talking to Katelyn or arguing with Kebra. But no worries, she still found time to rest (as shown in the picture). However, this also usually takes place during class time. It's a good thing she is a master procrastinator, or else the yearbook would have never gotten done.

This is Katelyn Teichert's second year on the staff. She is Michelle's second for just about everything. She spends most of her class time either talking to Michelle or reading a book. Still, she somehow managed to find time to finish her pages before almost everyone else (she must have cheated). AND she even supervised and was in charge of decorating Mr. Thompson's room for Christmas. Maybe she accomplished more than everyone thought?

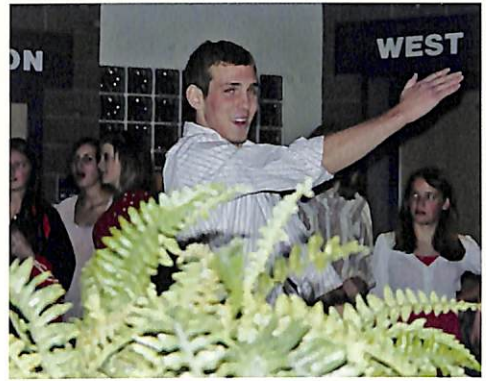

This is Bryant Helm's third semester in the yearbook class. He was part of yearbook last year, as a junior, and then rejoined the team for this second semester. Since he joined late, his only real job was to make the boys basketball highlight film. So this is a picture of him studying up for his contribution. That, and he also liked to waste time when he got bored.

Yearbook Staff

This is Andrew Petersen's first year in yearbook. He is a strong believer in President Moody's sleeping in school policy and can be found taking naps frequently during yearbook classes. He still managed to do a little work between naps though. He was responsible for both the Homecoming and Wrestling highlight videos, as well as a few yearbook pages here and there.

Kebra Kallstrom is in the yearbook staff for her second year running. She still enjoys the challenge of appearing to be busy when in actuality, accomplishing nothing. She spends a lot of time arguing with Michelle and hitting people. She is definitely the class antagonist. She is always signed on to the yearbook sight, but strangely it took her about four months to "almost" finish the senior class page.

Senior, Savanah Teichert, is part of the yearbook for her first time this year. She started the year out strong, really passing off the "pretending to work" thing impressively for a first timer. But by the second semester she was openly messing around and deliberately putting things off to the last minute. She fit in perfectly with almost every other member of the staff.

Yearbook Staff

Skyler Ferguson is a new student at CHS this year and decided to pursue an education in yearbook manufacturing. That, or he just decided it would be a fun class. He helped Kade and Sullivan with the teachers pages, or at least he thought he was helping. He sometimes got caught in the trap we call "Savanah" and ended up doing almost nothing for most of his time in the class. Basically, he's a nerd.

Celinda Teichert is enjoying her second year as part of the yearbook staff. She played a large roll in making the Volleyball highlight video. She was a premiere snowflake maker when we decorated for Christmas, but was considered a professional and wasn't allowed to enter our amateur snowflake making competitions. She could usually be found working on her math homework or reading a book.

McKenzie Thompson is in her first year of yearbook. I think she basically wanted an extra hour to read. She spent the first semester sitting at one of the desks reading the "Twilight" book series as well as other gushy love stories. I don't think I ever did see her actually do any work on the yearbook. She must have good friends though, because all of her pages got done on time.

More Yearbookers

Kade Hansen is a junior and this is his first year helping with the yearbook. He and Skyler like to have a good time, which means they don't get a whole lot of "yearbooking" done. They visit with Savannah a lot. Kade liked to look at pictures of cats, which are actually pretty funny, and demotivational posters. He's also kind of a nerd.

Megan Cook, in her second year of yearbook, usually worked hard in class. Although, she did her fair share of math and messing around too. She would frequently join McKenzie in reading love novels. It wasn't always her fault that she wasn't 100% productive though, because she had many distractions like: Michelle, Katelyn, Celinda, McKenzie, etc. Still, she did her part and the yearbook got done so we'll forgive her.

This is Sullivan Teichert's second year as part of the staff. He took a year off last year to broaden his horizons by taking a difficult Physics class which he passed with flying colors (thanks to retakes and throw out tests). Sullivan was the most likely staff member to be found working hard every day either on a highlight film for the class or on the actual yearbook. This picture is a very accurate representation of what he did during class times.. ? He is also the author of the yearbook staff write-ups.

Housing Crisis

The housing market hit crisis status in 2008. With the rise in unemployment, one in 10 homeowners was at least one payment behind on their mortgage or in foreclosure. Nationwide, median home prices fell more than 11 percent to \$183,000—the largest year-over-year drop on record since 1968.

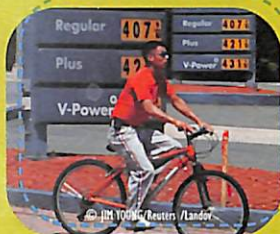

Billion-dollar Bailout

The U.S. Senate sparked intense debate when it approved a \$700 billion plan to rescue Wall Street. The bailout came in response to months of retail sales decline, home foreclosures and record drops in the stock market (dropping 777 points on September 29). Worldwide \$30.1 trillion of global stock market value was lost.

Americans Ditch Cars

With a recession in full swing and commuters concerned about record gas prices, drivers traded their cars for bikes. The Federal Highway Administration reported that Americans drove 9.6 billion fewer miles over the previous year. With consumers buying fewer cars, the big three American automakers felt the pinch. Seeking relief, they asked for and received a \$13.4 billion piece of the federal bailout originally intended for Wall Street.

Hurricane Ike Hits Texas

Thousands of residents evacuated coastal and inland areas

of Texas in preparation for Hurricane Ike, which turned out to be the third most destructive hurricane ever to hit the U.S. The early evacuation efforts (put in place after Hurricane Katrina) undoubtedly saved thousands of lives.

Cleared for Takeoff

It's official—Delta bought Northwest Airlines for \$3.1 billion, creating the world's largest airline. The combined new airline now serves more than 390 destinations in 67 countries. It is expected to generate about \$35 billion in yearly revenue and employ 75,000 people.

Energy Independence

The U.S. Congress agreed with President Bush's decision to lift the almost 20-year ban on offshore drilling operations. The high price of crude oil as well as the strategic importance of energy independence led to the decision.

U.S. Troops

After more than five years of war, plans to reduce the presence of U.S. troops in Iraq were moved forward. A new agreement between U.S. and Iraqi officials was ratified, outlining the withdrawal of U.S. troops by 2011. At the same time, in Afghanistan there were 31,000 U.S. troops, and that number is expected to double in 2009.

Winning against Cancer

New diagnoses and deaths from cancer both fell for the first time in the U.S. according to the National Cancer Institute's 2008 report. The overall death rates fell for the most common cancers, dropping .08 percent annually from 1999 to 2005 for both men and women. While overall cancer rates decreased, lung cancer remains a concern in the Midwest and the South. Both areas have yet to adopt anti-smoking laws that ban smoking in public places or to increase taxes on cigarettes.

Crisis in Gaza

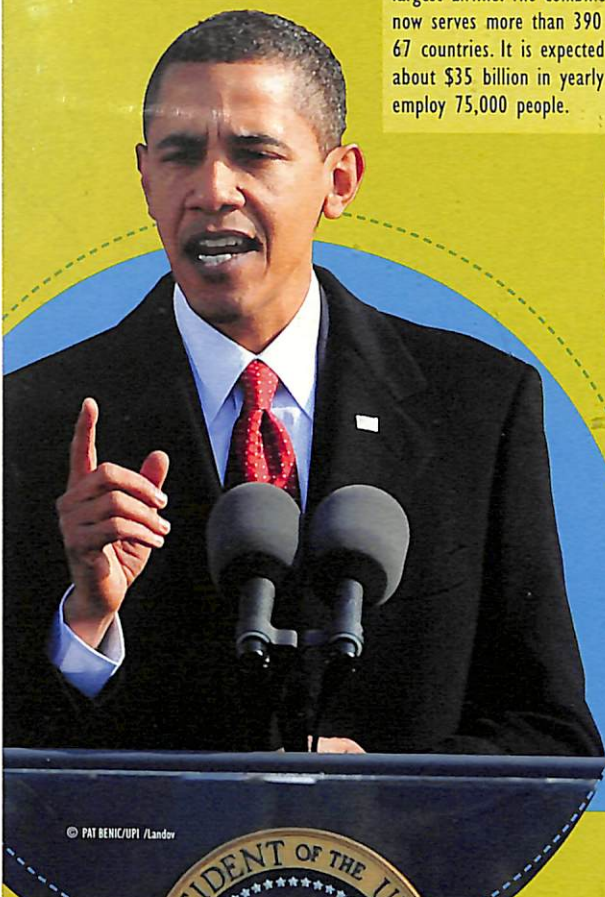

The long-standing conflict in Gaza rose to war when hundreds of civilians lost their lives and thousands were injured in airstrikes and mortar shell attacks waged separately by the Israeli military and Hamas militant groups. Hamas is listed as a terrorist organization by the U.S. and many other Western nations. In January 2009, Israel withdrew its troops

and the Hamas groups declared a cease-fire, ending the three-week war; however tensions between the two sides remain high.

Obama Elected 44th President

In a historic moment, 47-year-old Barack Obama, a freshman senator from Illinois, became America's first African-American president. In addition to shattering 200 years of history, he became the fifth youngest president ever when he was sworn in to office on January 20, 2009. In his inauguration speech, President Obama delivered a message of bipartisan hope and expectation to a crowd of over one million people in Washington D.C. and to millions more via television and the Internet.

Cease Fire

Following a short yet destabilizing conflict, the governments of Georgia and Russia signed a U.S. brokered cease-fire, which required all Russian troops to withdraw to their pre-invasion positions. The invasion was in response to Georgian suppression of Russian supported separatist rebels in the breakaway region of South Ossetia.

Earthquake Rocks China

A 7.9 magnitude earthquake rocked southwest China leaving 4.3 million people homeless. More than 60,000 people were injured while over 20,000 people lost their lives. To help rebuild the livelihoods, schools and basic services the area needs, several United Nations agencies have set up continuing operations in China.

Prepared for Landing

In January 2009, US Airways' Pilot C.B. "Sully" Sullenberger prepared for impact less than 90 seconds after taking off from LaGuardia International Airport in New York, as Flight 1549's engines went out after hitting a flock of birds. The pilot decided the safest place to land was in the icy waters of the Hudson River. Pilot Sullenberger's skill and quick response saved the lives of all 155 passengers.

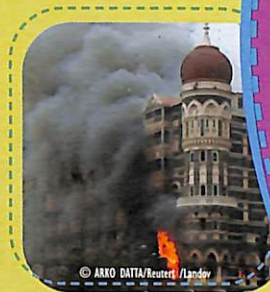

Adventurer to the End

Almost 13 months after adventurer Steve Fossett disappeared in a single-engine plane over Nevada and a year to the day since the search was called off, hikers found his airplane and remains in the Sierra Nevada Mountains. Fossett holds many world records including being the first person to fly solo nonstop around the world in a hot air balloon.

Mumbai Targeted

Over three days in November, India's city of Mumbai was attacked by terrorists, allegedly backed by a Pakistani-based Islamic militant group. Over 160 people lost their lives in the planned attack which targeted India's financial center.

Goodnight Nighthawk

After three decades of exemplary service as the first aircraft in history to successfully make use of stealth technology, the F-117 Nighthawk was retired at a private military ceremony. The "Stealth" gained notoriety through now famous camera footage of its precision performance in Desert Storm in the early 1990s.

Myanmar Devastation

A massive cyclone hit the small country of Myanmar in May 2008, tallying an eventual death toll of over 100,000 people. The military government of Myanmar initially refused foreign aid and asserted that it could handle all relief and rescue efforts. According to International Red Cross reports, the lack of immediate international support most likely cost thousands of lives.

An Election to Remember

The nation witnessed several history-making events during the 2008 presidential election.

Alaskan Governor **Sarah Palin** became the first female Vice Presidential candidate for the Republican Party.

New York Senator **Hillary Clinton** made a run at America's number one seat as a candidate in the Democratic primary. After withdrawing from the race, Clinton went on to accept the role of Secretary of State in President Obama's administration.

Voters turned out in record numbers with over 133 million Americans showing up at the polls. Social networking websites like YouTube, MySpace and Facebook played a major role in yielding the highest turnout in 40 years.

President Obama's inauguration was visible from space. Satellite images showed the record-breaking 1.8 million people gathered on the National Mall in Washington, D.C. to be a part of the historic event.

Teens Take Title

A high school team from Mater Dei High School in Evansville, Indiana beat out students from 23 universities to take the Shell Eco-marathon grand prize for designing, building and driving a vehicle that went the farthest distance using the least amount of fuel.

The three-wheeled combustion engine car achieved an amazing 2,843.4 miles per gallon. The students won \$10,000 for their invention.

Trash to Gas

The high price of gas in 2008 put a spotlight on the study of alternative fuel sources. In America, at the University of California at Davis, engineers repurposed table scraps into bio-gas. In similar studies in the United Kingdom and Japan, jellyfish, spoiled milk and confectionary waste were all given new life as alternative fuel sources.

Run Green

Did you know that a running shoe can last 1,000 years in a landfill? Brooks® has designed a shoe that reduces your carbon footprint—literally. The shoe features a new kind of midsole called BioMoGo, which degrades 50 times faster than a standard running shoe. Brooks® estimates that its green footwear will reduce 30 million pounds of landfill waste over a 20-year period.

Farms of the Future

In the future, farms could rise straight into the air resembling skyscrapers instead of sprawling acres of land. "Vertical" farming presents many advantages over traditional farming, mainly growing more food on less land. Currently, it takes a plot of land as large as Virginia to grow enough food for approximately 8 million people.

Stone or Glass?

Add countertops to the list of eco-friendly products. BottleStone, a Los Altos Hills company that makes ceramic stone countertops out of recycled glass, walked away with the \$100,000 prize from the CleanTech Open, a contest showcasing the newest innovations in the world of sustainability. The company said that zero emissions are created in the production of the new surface material, yet the glass countertops are as strong as concrete and cost less than marble or granite.

Tejon Ranch Protected

Conservationists and developers in California reached a historic agreement that will permanently protect the Tejon Ranch, 240,000 acres of land just north of Los Angeles. The newly protected area provides a critical habitat to many wildlife species. The strong support for environmental conservation is a sign of the times and will guarantee public access for generations to come.

Running on Air

Zero Pollution Motors, together with automaker MDI, plans to produce an affordable, environmentally-friendly car powered by air. While it won't run like a sports car, it can reach speeds of 35 miles per hour for 60 miles on a tank of compressed air, a sufficient distance for 80 percent of consumers to commute to work and run errands. On highways, it can cruise at interstate speeds for 800 miles with a small motor that compresses outside air to keep the tank fueled. Vehicle sales are slated for 2011.

Bird, Mammal or Reptile?

One of the most curious animals on the planet, the platypus, has a duck's bill, mammal fur and snake-like venom. Scientists mapped its genetic makeup, which indicates that this strange looking creature is, in fact, a little bit of all three—bird, mammal and reptile.

Earth Invades Mars

Usually we think of Martians invading Earth but it looks like Earthlings will make contact first. In May 2008, NASA's Phoenix Lander arrived on Mars and for the first time discovered ice on the Red Planet.

Ancient Sea Creature Discovered

A new group of plesiosaurs, a reptile species that swam in ancient seas, was discovered in North America. The plesiosaurs roamed during the Jurassic and Cretaceous periods—about 65-205 million years ago. This find represents one of the oldest and most complete skeletons of a prehistoric aquatic reptile ever discovered in North America.

Shipwreck Treasure

Geologists searching for diamonds off the coast of Africa discovered a treasure far more rare—a shipwreck loaded with gold and silver coins, as well as ivory and cannons used to fend off pirates. The ship is thought to be around 500 years old, dating back to the time of Vasco de Gama and Christopher Columbus.

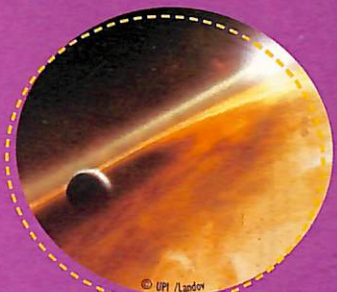

Sustainable Dave

Cameraman Dave Chameides embarked on a study to reduce waste. To showcase his effort he saved all of his trash for one year—only 30.5lbs. In comparison, the average family throws away 1,700lbs of trash annually. Chameides conducts seminars and writes a sustainability blog teaching that "no one can do everything, but everyone can do something."

A U.S. scientist discovered the world's tiniest species of snake, measuring only four inches long, on the island of Barbados in the Caribbean. Out of 3,100 known snake species, the newly named Zootaxa snake is so small it can curl up to the size of a quarter.

A potentially record-breaking diamond, totalling 478 carats, was found in the small southern African country of Lesotho. Although not the largest diamond found to date, this particular stone is valued for having the highest possible color rating for a white diamond and its potential to produce a polished stone of over 100 carats—now that's a rock!

Around the globe, evidence of climate change continued to make news.

In 2008, a 160-square mile chunk of Antarctic ice—seven times bigger than Manhattan—broke away, placing more glacial ice at risk.

Astronomers discovered 45 "super Earth" planets, indicating that one-third of all stars have a solar system in orbit with planets similar to Earth in size. Don't hold out for tiny green men, these planets orbit close to their stars (measuring mean temperatures of 354 degrees Fahrenheit) and cannot harbor life.

A rare sighting of a white killer whale had biologists running for their cameras. The scientific team on board the Oscar Dyson spotted the nearly mythical creature off of Alaska's Aleutian Islands. According to the research biologist who snapped a photo of the animal's back and fin, it was the equivalent to finding a "needle in a haystack."

George Washington's boyhood home was discovered at Ferry Farm, along the Rappahannock River near Fredericksburg, Virginia. The exciting find revealed many artifacts that could have been used on the farm from 1738-1754. Archaeologists discovered the structure, making it possible to

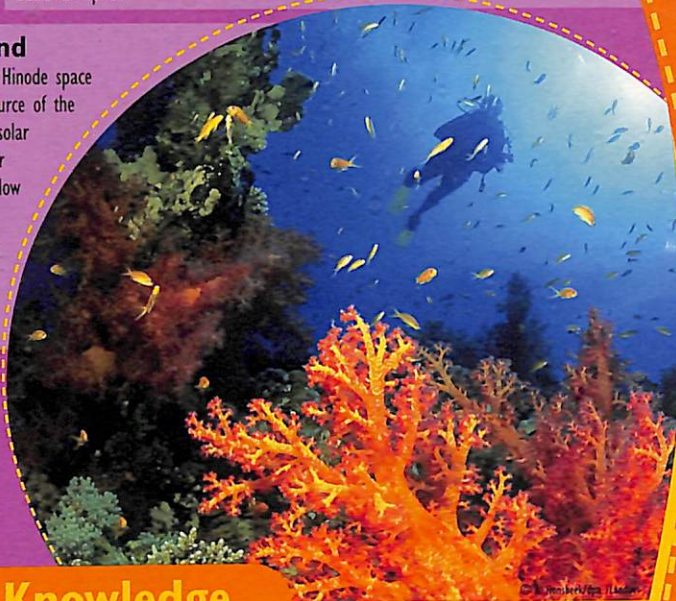

Carbon dioxide is entering the atmosphere at a faster rate than plants and oceans can absorb it.

With the help of images shot from the Hinode space observatory, scientists pinpointed the source of the stream of particles that make up slow solar wind. Astronomers knew where fast solar wind originated but knew little about slow solar wind. Now scientists know that it comes from the region above the Sun's equator allowing them to better understand the dynamics of space weather and solar storms.

A marine survey revealed thousands of discoveries from beneath the surface of the sea, including a city of starfish and a carpet of crustaceans. The Census of Marine Life is part of a worldwide project to understand life under the sea. The census is expected to reveal important information about 230,000 known marine species and possibly identify more than 5,500 new species.

More than a million species face extinction due to climate change including the polar bear, which in May 2008 was officially added to the list of endangered species.

Some scientists warn that sea levels could rise as much as 23 inches by the century's end. Rises of just four inches could flood many South Sea Islands and swamp large parts of Southeast Asia.

Tech Topics

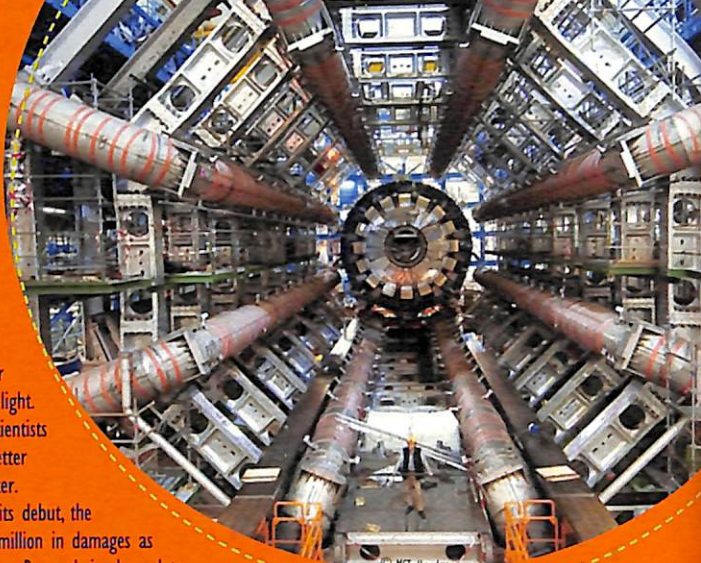

Walk This Way

Discovering new ways to generate energy is a top priority. Kinesiologist Max Donelan from Simon Fraser University invented a device that harvests energy from the simple and routine act of walking. The 3.5 lb. device wraps around each knee generating five watts of power—enough to charge 10 cell phones.

Large Hadron Collider

Scientists at the European Organization for Nuclear Research developed the Large Hadron Collider (LHC) that smashes atom protons together at 99.9999% of the speed of light. The \$9 billion device allows scientists to test physics theories and better understand the nature of matter. Unfortunately, nine days after its debut, the "atom smasher" suffered \$21 million in damages as the result of an electrical failure. Research is planned to resume after the repairs are completed.

Floating Ads

Created by a company called Flogo, these new floating advertisements can take the shape of anything you want—from simple messages to images of superheroes. The "clouds" are made by combining soap-based foams with lightweight gases such as helium. The company uses re-purposed artificial snow machines to create the floating ads which last 30-40 minutes on average and don't pollute the environment.

Let's Get Chumby

The newest form of on-the-go entertainment, Chumby connects to your wi-fi to keep you up-to-date on your favorite music, podcasts, celebrity news, videos, games, photos and more. Chumby technology delivers your favorite parts of the Internet, leaving the keyboard and computer behind.

Computer Hears

Dictation software is nothing new but Nuance's Dragon® NaturallySpeaking® 10 is the first program on the market that adjusts for the different ways people speak. The program recognizes eight accents including Australian, British, Spanish and Southern United States and understands basic commands such as "italicize" and "search." Now if it could only do your homework.

Get a Life-Form

It's not what "they" will think of next, but what gamers will create in their own video game experience. Spore™, the new game by Will Wright, the creator of SimCity and the Sims, allows players to design their own unique life-form and manage every aspect of its progression through centuries.

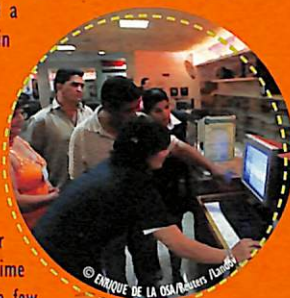

Back in the Swim of Things

Pierre, a 25-year-old penguin at the California Academy of Sciences, was losing his feathers. Without waterproof feathers penguins cannot survive the cold. An aquatic biologist created a wetsuit for him like the ones humans wear making it possible for him to join his fully-feathered friends.

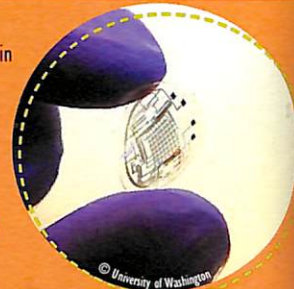

Cuba Gets Wired

Desktop computers, a technology that is considered a necessity in the U.S., became available to Cuba's public market for the first time ever. While few could afford the QTech computers that cost nearly \$800, electronic stores throughout Cuba drew crowds of excited onlookers.

Superhuman Contacts

Soon you may be able to use bionic contacts to zoom in on distant objects, displaying useful facts about what you see. These super-power lenses use tiny light-emitting-diodes (LEDs) powered by solar cells and a radio frequency receiver to display images and information in midair. The invention could prove beneficial to drivers and pilots as well as video gamers by projecting directions and speed within their view, eliminating the need for external screens.

Clean Keys

Seal Shield LLC introduced the world's first fully submersible, dishwasher safe, antimicrobial, glow-in-the-dark keyboard. The Silver Seal Flex™ keyboards have the potential to reduce the risk of getting sick from colds and other communicable diseases.

Going Digital

U.S. households prepared for television's final transition from analog to digital. To help consumers absorb the cost of a necessary converter box, the government issued \$40 vouchers. The Obama administration sought support from Congress to postpone the transition after the Commerce Department reached its funding limit. The request was passed by the Senate as consumers continued to prepare for the digital switch.

Off the Chain

No need to worry about pinching your finger or getting your pants stuck in a bike chain. Wisconsin-based Trek Bicycle introduced two models of chainless bikes that move using the same technology as motorcycles and snowmobiles. These bikes are low maintenance, environmentally friendly and light weight making them ideal for city commuters.

No Ordinary Pen

The Pulse™ smartpen developed by Livescribe is the latest "it" gadget that transforms an ordinary pen into a digital tool. The high-tech pen records what you hear or say

while writing, plays back your recordings and provides visual cues on a tiny imbedded display screen. The information can then be downloaded to your computer for easy editing.

Goodbye Dentist Drill

It won't get you out of your yearly dental checkups, but the dentist drill could soon be gone.

Scientists began development on a formula to allow teeth to re-grow the crystals that make up dentin and enamel; materials that make teeth the strongest element in the body.

Sitting on Cloud 9

Forget sandy beaches, the British have a new way to relax: an acrylic lounge that can hover in midair. The gravity-defying chair developed by Hoverit LTD works by repelling magnetic forces producing the sensation of floating on a cloud.

High-Tech Gift Cards

Retailers went high-tech with gift cards to entice consumers. Best Buy created a card with tiny speakers and a headphone jack allowing users to listen to their favorite music, while Target® introduced a 1.2 megapixel camera gift card. Lucky recipients enjoyed two gifts in one.

Design for a Cause

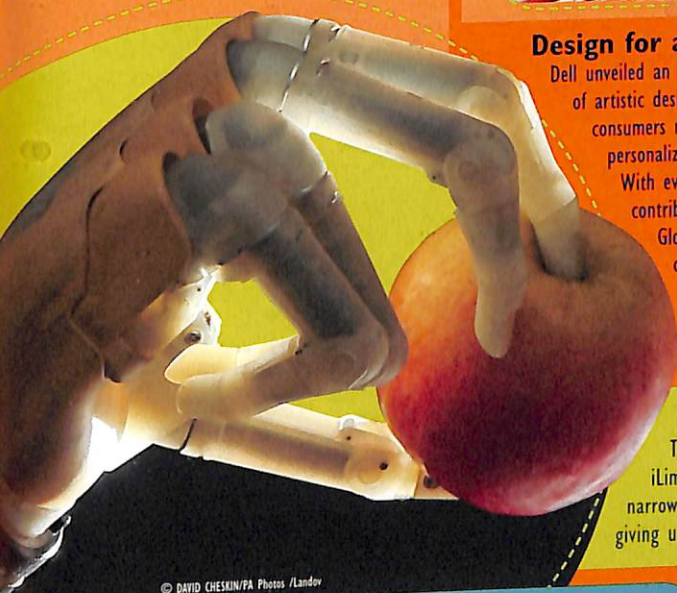

Dell unveiled an exclusive gallery of artistic designs that consumers may purchase to personalize their laptop. With every sale, Dell contributes \$20 to The Global Fund, a charity helping AIDS patients in Africa.

COLOUR PANELS INSPIRON STUDIO

Bionic Hand

The world's first bionic hand was created by Touch Bionics. The iLimb's revolutionary motorized fingers have the ability to grasp narrow objects and the power to hold heavier objects like coffee cups, giving users more independence.

The Auto Age

One-hundred years ago the Ford Model T was introduced. In the years to follow, vehicle technology and innovation continued to evolve.

The Model T changed the face of transportation when Henry Ford began using the conveyor belt for production, making cars affordable for the masses. Following in its footsteps came the "family utility" vehicles, the station wagon (1947), mini van (1983) and SUV (1990), accommodating the growing needs of busy families.

Hybrid technology emerged as consumers demanded fuel efficiency. Honda's Insight, the first hybrid marketed in the U.S. led the way for many other top automakers to develop their own line of gas/electric vehicles.

Imagine the Next 100 Years. Automakers plan to push automotive technology even farther by promoting eco-chic cars, electrically powered luxury vehicles for drivers who don't want to compromise strong design for environmental friendliness.

The Scoreboard

Steel-ing the Win

The Pittsburgh Steelers won a record-setting sixth Super Bowl title by defeating the Arizona Cardinals. A game-winning touchdown in the final seconds moved the score to 27-23, giving the Steelers a tension packed last-minute win. Steelers' wide receiver Santonio Holmes was named MVP.

Double-Dutch

Double-dutch is now an officially recognized sport in New York City high schools. A year after cricket was inducted as a varsity sport, school administrators have added double-dutch as a way to increase student participation in competitive sports. Cycling, badminton and netball are also being considered.

Striking Gold at the X Games

Ryan Sheckler, the X Games' youngest street skateboarding gold medalist at age 13 in 2003, struck gold again at the 2008 Games. Female skateboard champ, Elissa Steamer, returned to claim her fourth gold medal.

Eight is Great

Michael Phelps was the shining star of the 2008 Beijing Olympics, winning eight gold medals, breaking Mark Spitz's record for most gold medals won in a single Olympic Games. Phelps swam 17 times over nine days and broke the world record in four of his five individual swims. His three relay teams also set world records. Phelps' achievements led to *Sports Illustrated* naming him 2008 Sportsman of the Year plus numerous endorsements.

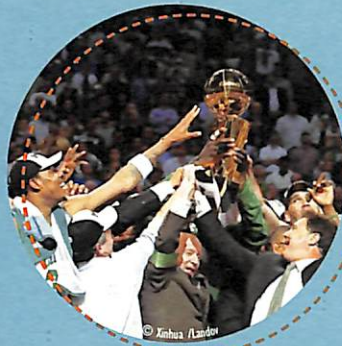

Serena's Comeback

A backhand shot signaled tennis star Serena Williams' return to glory. With her 6-4, 7-5 victory over Jelena Jankovic at the US Open, Williams regained the No. 1 world ranking, a title she last held in 2003. The gap between achieving No. 1 world rankings is the longest in history for a woman or a man.

Racing Victories

2008 was a year of surprises in car racing, especially for Danica Patrick and Jimmie Johnson. Patrick was in the spotlight, becoming the first woman ever to win an Indy Car race. Johnson won his third straight NASCAR Sprint title, making him one of two drivers in NASCAR history to win three championships in a row in the marquee series. With his win, Johnson tied Cale Yarborough's 30-year record.

Celtics Win 17th NBA Title

The Boston Celtics won their first NBA title in 22 years. In Game 6 of the playoffs they won with a 131-92 blowout over the Los Angeles Lakers. The win was also the first for the "Big Three," Paul Pierce, Kevin Garnett and Ray Allen.

Silver Stars Shock-ed

The Detroit Shock swept a three game series over the San Antonio Silver Stars to win their third WNBA title. Katie Smith, Detroit's leading scorer in all three games, was named Finals MVP.

Immelman Grabs Green

Trevor Immelman overcame Tiger Woods and Phil Mickelson with a score of 75 in the final round to win the coveted green jacket at the Masters in Augusta, Georgia. Vijay Singh was the season's overall winner scoring the most points and claiming the FedEx Cup and its \$10 million prize.

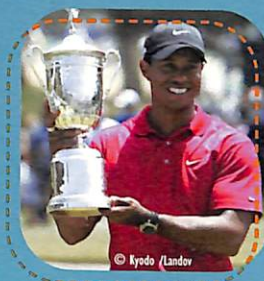

Win for Shin

Twenty-year-old Ji-Yai Shin of South Korea became the first non-LPGA member to win three LPGA events with her win at the ADT Championship, marking her 11th worldwide victory in 2008. The event was bittersweet for women's golf legend Annika Sorenstam who failed to make the cut in her last official LPGA tournament before retirement.

Tiger Tamed

After winning the U.S. Open, golf legend Tiger Woods announced that he had been playing with a leg injury. Despite his injury, Tiger played 91 holes, defeating Rocco Mediate on the 19th hole of the playoff. Woods chose to end his season early to treat his injury. The famous golfer has 65 victories; ranking third of all-time on the PGA Tour with 14 professional majors, making him second only to the record 18 won by Jack Nicklaus.

Hole-in-One Times Five!

Amateur golfer Curt Hocker of central Illinois hit five hole-in-ones in one week at the El Paso Golf Club. The 22-year-old, who works in the club's pro shop, has recorded seven aces (five on par-4s) and two other double eagles in the past year. Hocker, along with his friends and family who witnessed his strokes of luck, is mystified by the repeat performances.

Olympic Moments

In August, 204 countries participated in the Summer Olympic Games in Beijing, China and captured the attention of a global audience.

Opening Ceremony - At promptly 8 p.m. on the eighth day of the eighth month of 2008 (eight is considered one of the luckiest numbers in China) millions of people around the world watched the opening ceremony. The extravaganza was a mix of music, artistry and fireworks showcasing China's national pride and 5,000 years of tradition. The \$300 million event with a cast of 14,000 raised the bar for future Olympics.

Fabulous over 40

Dara Torres, 41, surprised everyone when she returned to her fifth Olympic Games with teammates nearly half her age. Torres won the silver medal in the 50 meter freestyle sprint final, swimming a personal best of 24.07 seconds, but missing the gold by just .01 seconds.

Bolt Sprints to Win

Jamaican born Usain Bolt took the track by storm with three record-setting runs which all won him gold medals. Bolt now boasts the title "Fastest Man Alive," running the 100 meter dash in 9.69 seconds.

Kickin'!

The U.S. Women's Soccer National Team captured the Algarve Cup once again, defeating Denmark 2-1 at Municipal Stadium in Portugal. The team went on to win the 2008 Peace Queen Cup with a 1-0 victory over Canada. The victory marked the second time the U.S. has defeated Canada by a 1-0 score to win the Peace Queen Cup.

Wimbledon Winner

The 122nd Wimbledon Championship concluded with a grand finale, when Spain's Rafael Nadal brought down five-time champion Roger Federer in the longest men's final in the history of the All England Club. Nadal's victory took four hours and 48 minutes of actual playing time.

Science of Swimming

Speedo's LZR Racer, a new high-tech one-piece swimsuit, molds a swimmer's body into an aerodynamic shape, potentially giving swimmers more buoyancy in the water. Several swimmers, including Michael Phelps, debuted the suits at the 2008 Summer Olympics.

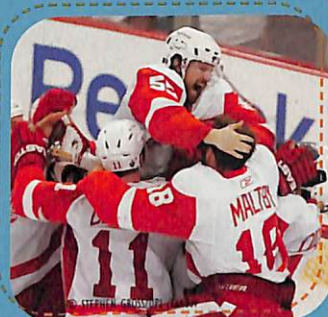

Run for the Roses

Big Brown won the 134th running of the Kentucky Derby in a final kick that gave him a 4 3/4-length victory before a crowd of 157,770, the second-largest in history. With this win Big Brown became the seventh undefeated Kentucky Derby winner in history. The victory celebration was eclipsed by a fatal injury to Eight Belles, the second place winner.

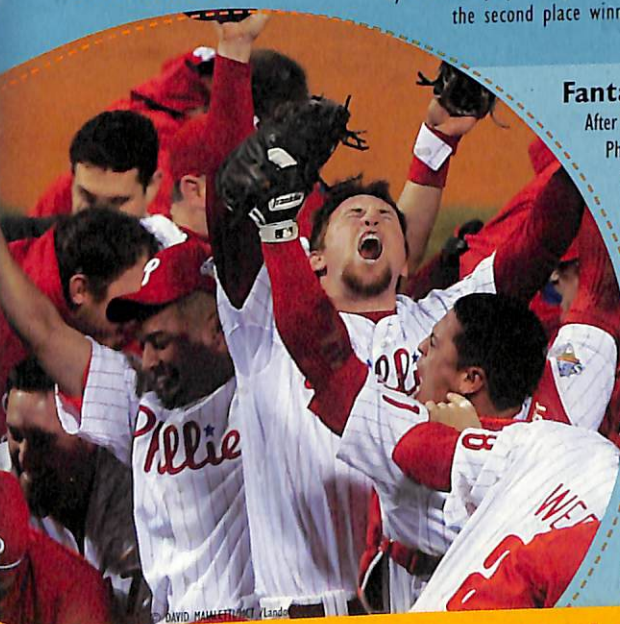

Fantastic Phillies

After 25 years, the Philadelphia Phillies won the World Series trophy. Despite a rain-delayed game, they took down the Tampa Bay Rays 4-3 in Game 5 to win their second World Series title. The team named Cole Hamels MVP. Hamels out pitched Scott Kazmir for a 3-2 win in the opener, then tossed six effective innings before the delay, but never pitched in the final game. Hamels finished 1-0 with a 2.77 ERA in two World Series starts.

Red Wings Capture Cup

After a surprising loss in Game 5, the Detroit Red Wings made a triumphant comeback in Game 6 of the 2008 Stanley Cup Finals, winning 3-2 against the Pittsburgh Penguins. The Stanley Cup win was the fourth for the team in 11 seasons.

Surfboard Goes to...

Gossip Girl has six more reasons (in the form of surfboard trophies) to rule the school. The Teen Choice Awards were selected based on over 30 million votes cast online by teenagers who hailed the prep-school drama as their top choice. Chace Crawford and Blake Lively each took home a Breakout Actor Award. The Jonas Brothers also took home six awards: Choice Breakout Band, Choice Male Hotties and Choice Male Red Carpet Icons, Choice Music: Single, Choice Music: Summer Song and Choice Music: Love Song.

AMA Winners

Chris Brown was the big winner at the American Music Awards taking home three awards including Favorite Male Pop/Rock Artist. Kanye West, Rihanna and Alicia Keys also walked away with multiple awards, while newcomer Taylor Swift was awarded Favorite Female Country Artist.

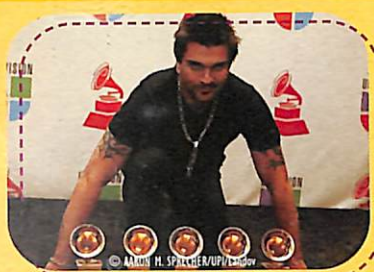

Good as Gold

The uplifting film *Slumdog Millionaire*, presented partly in Hindi, charmed the Golden Globes judges, who awarded it Best Dramatic Picture. The night's other big winners included Kate Winslet for Best Actress in a Drama for *Revolutionary Road* and Best Supporting Actress for her role in *The Reader*. Mickey Rourke made a comeback in *The Wrestler* winning Best Actor. The HBO television series *John Adams* picked up four awards while NBC's *30 Rock* was named Best Comedy with its star and creator Tina Fey picking up Best Actress in a Comedy and her cast mate Alec Baldwin winning Best Actor in a Comedy.

John Adams Rules

HBO ruled the 60th Primetime Emmy Awards, winning a record 13 Emmys for its hit mini-series *John Adams*. The first Emmy for outstanding host for a reality or reality-competition program was awarded to Jeff Probst of *Survivor: The Daily Show with Jon Stewart* prevailed as outstanding comedy series and CBS's *The Amazing Race* was named outstanding reality-competition program—both show's victories marked a record breaking six straight wins.

Juanes Sweeps Latin Grammys
